Re: PCB Remediation Notice
Washington Park Corporate Center
Dupont Circle, 45th Street, Washington Street Infrastructure Land, and Lot 5
4400 Block of East Washington Street
Phoenix, Arizona

WT Job No. 2187JK136

Western Technologies Inc. has prepared this PCB remediation notice for submittal to the United States Environmental Protection Agency (USEPA) pursuant to the Self-Implementing Clean-Up procedures contained in the Toxic Substances Control Act (TSCA) under 40 CFR §761.61(a)(3) for planned remediation to address the presence of polychlorinated biphenyls in soil within the designated portions of the Washington Park Corporate Center, 44th Street and Washington Street, in Phoenix, Arizona.

Those regulations require the submittal of this notice, at least 30 calendar days prior to the commencement of the remediation, to county environmental protection agency where the cleanup will be conducted. We are submitting this notice to you since a dust control permit will be necessary for the work. The permit application itself will be submitted separately by the remediation contractor. If you have any questions or comments about this notice, feel free to contact David Regonini at Western Technologies Inc. at 602-437-3737.

Respectfully,
WESTERN TECHNOLOGIES INC.

David Regonini, REA
Director, Environmental Services
